Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 1-12, 28, 30-32 and 50 drawn to a method of processing an information signal containing content, classified in class 381, subclass 58.
 - II. Claims 13-27, drawn to a method of processing speech signal, classified in class 704, subclass 233.
 - III. Claims 29, drawn to a method of processing a video signal, classified in class 348, subclass 69.
 - IV. Claims 33-34, 51 and 53, drawn to a method of processing information signal containing text-based content, classified in class 715, subclass 531.
 - V. Claims 35-49 and 52, drawn to a method of processing an information signal containing markup language-based content, classified in class 715, subclass 513.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, III, IV and V are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case, invention I is directed to a method of processing an

information signal containing content, invention II is directed to a method of processing speech signal, invention III is directed to a method of processing a video signal, invention IV is directed to a method of processing information signal containing text-based content, and invention V is directed to a method of processing an information signal containing markup language-based content. Therefore, inventions I, II, III, IV and V have different modes of operations and they have different effects.

2. These inventions are distinct for the reasons given above and search required for each group is different and not co-extensive for examination purpose. For example, the searches for the two inventions would not be co-extensive because these groups would require different searches on PTO's classification as following:

Group I search (claims 1-12, 28, 30-32 and 50) would require use of search

Class 381, Subclass 58.

Group II search (claims 13-27) would require use of search **Class 704, Subclass 233.**

Group III search (claims 29) would require use of search **Class 348, Subclass 69.**

Group IV search (claims 33-34, 51 and 53) would require use of search **Class 715, Subclass 531.**

Group V search (claims 35-49 and 52) would require use of search **Class 715, Subclass 513.**

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. A shortened statutory period for response to this action is set to expire **0 (zero) months and 30 (thirty) days** from the mail date of this letter. Failure to respond within the period for response will result in **ABANDONMENT** of the application (see 35 U.S.C 133, M.P.EP 710.02, 710.02(b)).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Oanh L. Duong whose telephone number is (703) 305-0295. The examiner can normally be reached on Monday- Friday, 8:00AM - 5:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hosain T. Alam can be reached on (703) 308-6662. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
